Contract Task Order (CTO) 0104
Draft Action Memorandum, Site 1
Landfill Near Incinerator
Naval Weapons Station Yorktown
Yorktown, Virginia
Cheatham Annex Site

Dear Mr. Schirmer:

Baker Environmental, Inc. (Baker) is pleased to submit three copies of the Draft Action Memorandum for the Time-Critical Removal Action (TCRA) to be performed at Site 1 – Landfill near Incinerator, at the Naval Weapons Station Yorktown, Cheatham Annex Site.

The TCRA will be implemented to mitigate erosion of the landfill perimeter and prevent continued migration of landfill debris onto the beach area and subsequently into the York River. Construction is planned for August 1999. Under the original project schedule for CTO 0104 the Draft Action Memorandum for Site 1 was to be submitted in November 2000. However, due to the time-critical nature of the removal activities, the schedule for the removal (and consequently the Action Memorandum submittal) has been accelerated.

Baker recommends that the Navy provide review comments by June 30, 1999, in order to provide the regulators with adequate review time prior to the proposed construction activities.
